

**Key:**

1. CONIDECK® elastomeric waterproof deck membranes: spray or hand applied elastomeric crack bridging membranes to provide guaranteed long term protection even in heavy-duty wear areas such as ramps and turning circles.
2. CONIDECK® intermediate car park deck coatings: solvent free and water dispersed floor coatings, available in a variety of colours.
3. EMACO® Nanocrete cementitious concrete repair systems: for small or large scale replacement of spalled or damaged concrete.
4. MASTERSEAL® protective coatings for anti carbonation and anti-graffiti: aesthetic improvement and protection to delay the onset of corrosion.
5. EMACO T® traffic repair mortars: for rapid setting repair of potholes, joint arrises, etc. with a minimum down time and loss of revenue.
6. EMACO CP® cathodic protection systems: for the only permanent solution to heavily chloride contaminated concrete structures.
7. MASTERFLEX® structural adhesives and ConcreteONCRESIVE® resin injection systems: for repair of non-moving cracks.
8. MASTERFLOW® cementitious and resin grouts: for anchoring barriers, external cladding, etc.
9. MBRACE® systems for structural strengthening and increasing load bearing capability: carbon and aramid fibre tow sheets, laminates and rods with MBRACE® resin systems.
