

Key:

1. CONIROOF® waterproofing solution: select from spray and hand-applied systems.
2. MASTERTOP® primers and preparation coats as recommended by BASF Construction Chemicals.
3. Consult BASF Construction Chemicals for advice on the most appropriate vapour control layer.
4. Insulation options: CONIROLL®, C PER® or CONITHERM®, bonded in cold adhesive or mechanically fixed.
5. CONIROOF® waterproofing membrane.
6. CONIROOF® top coat.
7. THORO® WATERPACK hydro-swelling elastic compound to seal penetrations.
