

Key:

1. PROOF MARINE®, RHEOCRETE® 222+, RheoFIT®, Glenium®, concrete admixtures for waterproofing/chloride/sulphate resistance.
2. THORO® WATERPACK hydro-swelling, elastic compound, used with THORO® WATERPLUG ultra-rapid setting mortar to form a watertight seal.
3. MASTERSEAL® 501 capillary waterproofing surface applied slurry system, THORO® polymer-modified coatings and membranes. Also CONIPUR M805 spray applied polyurea membrane.
4. EMACO® CP 60 spray-applied cementitious conductive anode system for reinforced concrete.
5. THOROSEAL WR® cement-based waterproofing render with sulphate resistance.
6. EMACO® Nanocrete concrete repair mortars for corners and profiles.
7. THORO® STRUCTURITE DWI approved rapid-setting, high-strength structural repair mortar.
